FOR IMMEDIATE RELEASE

NORTH CYPRESS MEDICAL CENTER TO HOST FREE SPINE SEMINAR

Cypress, TX, 1/16/12- North Cypress Medical Center is offering a Free Spine Seminar on Wednesday, March 28, 2012, at 7:00pm at the Westin Houston Memorial City Hotel. The discussion will be lead by Dr. Alexander Mohr, M.D., Spine Surgeon at North Cypress Medical Center, and include detailed information about the benefits of Minimally Invasive Spine Surgery and other treatment options to end spinal pain. The seminar will be followed by an open Q&A session.

Minimally Invasive Spine Surgery is a new, advanced surgical process used to treat common spine conditions. Small incisions are now used to treat the same conditions that required complex, extensive spine surgery in the past. The goal of Minimally Invasive Spine Surgery is to reduce soft tissue trauma to allow a more rapid patient recovery from surgery and an earlier return to activity. Spine Surgeons at the North Cypress Spine Center are Board-Certified with first-hand training and extensive experience in Minimally Invasive Spine Surgery.

This seminar is open to the public and will take place at the Westin Houston Memorial City Hotel. For more information or to register please call 1-877-27-BACKS (22257) or visit our website at www.NorthCypressSpineCenter.com.

North Cypress Medical Center is a 175-bed physician owned acute care hospital located in Cypress (northwest Houston area), Texas.
